\*\*\*\*\*

The applicant NEVADA GOLD MINING, INC., hereby makes application for permission to change the place of use and manner of use of water heretofore appropriated under Permit 50888, Certificate 13290

\*\*\*\*\*

1. The source of water is underground.
2. The amount of water to be changed 1.09 cfs, not to exceed 788.94 acre-feet annually.
3. The water to be used for recreation and domestic.
4. The water heretofore permitted for mining, milling, domestic and dewatering.
5. The water is to be diverted at the following point within the NW $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 21, T.40N., R.35E., MDB&M, at a point from which the S $\frac{1}{4}$  corner of said Section 21 bears S 2°24'00" W a distance of 4,728.1 feet.
6. The existing permitted point of diversion is located within
7. Proposed place of use within the N $\frac{1}{2}$  N $\frac{1}{2}$  Sec. 21, and the S $\frac{1}{2}$  S $\frac{1}{2}$  Sec. 16, T.40N., R.35E., MDB&M.
8. Existing place of use within Sections 16 and 21, T.40N., R.35E., M.D.B&M.
9. Use will be from January 1 to December 31 of each year.
10. Use was permitted from January 1 to December 31 of each year.
11. Description of proposed works Drilled and cased well, submersible pump and motor, distribution system.
12. Estimated cost of works \$80,000
13. Estimated time required to construct works Works complete
14. Estimated time required to complete the application of water to beneficial use Five years
15. Remarks: Water pursuant to this application to change will be utilized to maintain the water level in the pit, which pit was excavated for mining purposes. The resultant lake will be utilized for recreation purposes. Use mpa on file under 50876 to support this application.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the manner of use and place of use of water from an underground source heretofore appropriated under Permit 50888 Certificate 12390 is subject to the terms and conditions imposed in said Permit 50888 Certificate 12390 and with the understanding that no other rights will be affected by the change herein. This permit is to allow infiltration into the pit area from the groundwater source. Any evaporation that results from the pit lake must be charged against the replenishable recharge as a groundwater depletion.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records will be kept of the following: (A) the volume of water consumptively used for closure, reclamation and recreation purposes, (B) the water pool elevation within the pit, (C) the relative surface area of the pond, and (D) the total volume of water impounded within the pit lake. These records will be submitted to the State Engineer in report form within 15 days after the end of each calendar quarter for the entire pumping period.

The method that estimates the monthly evaporative surface losses must be submitted with each quarterly report. The evaporative losses will be considered as part of the combined duty for consumptive purposes. A method that estimates the monthly recharge flow into the pit must also be submitted with each quarterly report.

The State Engineer retains the right to change the monitoring submission period.

The State Engineer retains the right to require both localized and regional modeling and analysis of the hydrologic effects from the pumping herein authorized on the waters of the State of Nevada.

The State Engineer retains the right to impose future conditions as necessary upon review and evaluation of all data submitted.

The State Engineer retains the right to regulate pumping and/or any other surface or groundwater withdrawals herein authorized to protect the public interest and existing rights.

The State Engineer retains the right to re-evaluate the terms and conditions of this permit up to the time of stabilization of the pit water table or until the final post closure monitoring as required by the Nevada Division of Environmental Protection is satisfied, whichever occurs first.

All of the above stated conditions are issued subject to having no adverse impacts on existing rights.

(CONTINUED ON PAGE 2)

## (PERMIT TERMS CONTINUED)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.09 cubic feet per second, but not to exceed 789.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

February 4, 1998

Proof of completion of work shall be filed before:

March 4, 1998

Application of water to beneficial use shall be filed on or before:

February 4, 2001

Proof of the application of water to beneficial use shall be filed on or before:

March 4, 2001

Map in support of proof of beneficial use shall be filed on or before:

City or Town

Nevada, 89445

State and Zip Code No.

hereby make s application for permission to change the

place of use and manner of use

Point of diversion, manner of use, and/or place of use

of water heretofore appropriated under

Permit 50888, Certificate 13290

Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and

identify right in Decree.

1. The source of water is underground

Name of stream, lake, underground spring or other source.

2. The amount of water to be changed

1.09 cfs, not to exceed 788.94 acre-feet annually.

Second feet, acre feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for

recreation and domestic.

Irrigation, power, milling, industrial, etc. If for stock state number and kind of animals.

4. The water heretofore permitted for

mining, milling, domestic and dewatering.

Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

5. The water is to be diverted at the following point

within the NW $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 21, T. 40 N., R. 35 E.,

Describe as being within a 40-acre subdivision of public survey and by course and

MDB&M, at a point from which the S $\frac{1}{4}$  corner of said Section 21 bears S 2° 24' 00" W  
distance to a section corner. If on unsurveyed land, it should be stated.a distance of 4,728.1 feet.

6. The existing permitted point of diversion is located within

If point of diversion is not changed, do not answer.

7. Proposed place of use within the NW $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 21, and the S $\frac{1}{4}$  S $\frac{1}{4}$  Sec. 16, T. 40 N.,

Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.

R. 35 E., MDB&M.8. Existing place of use within Sections 16 and 21, T. 40 N., R. 35 E., M.D.B&M.

Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or

manner of use of irrigation permit, describe acreage to be removed from irrigation.

9. Use will be from

January 1

Month and Day

to

December 31

Month and Day

of each year.

10. Use was permitted from

January 1

Month and Day

to

December 31

Month and Day

of each year.

11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and

specifications of your diversion or storage works.) Drilled and cased well, submersible pump

State manner in which water is to be diverted, i.e. diversion structure.

and motor, distribution system,  
ditches, pipes and flumes, or drilled well, etc.12. Estimated cost of works \$80,00013. Estimated time required to construct works Works complete

14. Estimated time required to complete the application of water to beneficial use five years

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

Water pursuant to this application to change will be utilized to maintain the water level in the pit, which pit was excavated for mining purposes. The resultant lake will be utilized for recreation purposes. Use mpa on file under 50876 to support this application.

part of the combined duty for consumptive purposes. A method that estimates the monthly recharge flow into the pit must also be submitted with each quarterly report.

The State Engineer retains the right to change the monitoring submission period.

The State Engineer retains the right to require both localized and regional modeling and analysis of the hydrologic effects from the pumping herein authorized on the waters of the State of Nevada.

The State Engineer retains the right to impose future conditions as necessary upon review and evaluation of all data submitted.

The State Engineer retains the right to regulate pumping and/or any other surface or groundwater withdrawals herein authorized to protect the public interest and existing rights.

At such time as final stabilization of the pit water table occurs and/or the beneficial use for reclamation, remediation or recreation ceases, the State Engineer retains the right to both re-evaluate the terms and conditions of this permit, and/or to expire the permit.

All of the above stated conditions are issued subject to having no adverse impacts on existing rights.
